New Nesting Box® Kit - Build your own Nesting Box®

Natural Farrowing System, LLC

"The Nesting Box provides the highest animal welfare standards. They work very well in multiple facilities and are suitable for any farm, in any climate. They have greatly reduced labor and heating costs. I highly recommend the Nesting Box for all pork producers, whether they have commercial, natural, or organic operations." - James Frantzen, Organic Prairie Pork Pool Coordinator and Family Farmer

Think **INSIDE** the Nesting Box®

- Designed to work with the animals natural instincts
- Automated temperature controls for animal comfort and energy savings.
- Kit includes all the hardware and technology of Standard Poly Box
- Complete set of building instructions, with phone support
- Estimated cost of building materials not included \$138
(kit does not include lumber, fasteners, glue, or paint)

"These boxes have proven that winter farrowing IS possible outside during the winter months with NE IA climate. I couldn't say anything that I would change on the boxes to improve them- they are truly an excellent design that works very well."

James Frantzen, Organic Prairie Pork Pool Coordinator and Family Farmer
